

MICHAŁ DYCHTANOWSKI

Freelancer, Web Designer, Gamer

Graphic and web design have been my hobby for about 4 years now. My adventure started with making simple edits to copyright free Wordpress/Joomla/Webspell templates. I've enjoyed doing it so much that I've decided to dive deeper into the world of web design and programming. I am ready to work independently or as a member of a team. I have great communication skills. Im an adept multitasker with the ability to work on simultaneous projects and bringing them to a completion with great efficiency and accuracy.
